New academic initiatives and

“centers of excellence” at the University can succeed only with external support for the resources they need to attain their goals. The Mike Bachurski Family Endowment for the Study of Venture Capital Innovation and Ethics supports the Hesburgh Libraries, as they, in turn, support the research of the Mendoza College of Business with resources appropriate to its growth and stature.

As the Mendoza College of Business evolves, it is focusing on more closely defined areas of inquiry—such as venture capital and business ethics. The Bachurski Family Endowment lends critical assistance to each new research initiative with information resources in a variety of formats.
